Shubhashish Jena

+91-762-189-0244 | shubh.jena@gmail.com | linkedin.com/shubhjena | github.com/shubhjena

Technical Skills

Languages: TypeScript, JavaScript, Java, C#, HTML/CSS
Frameworks: Angular, Next.js, React, .Net, Spring, Tailwind CSS, Material UI, Playwright
Databases & Tools: MySQL, PostgreSQL, Hibernate
Developer Tools: Vercel, Nx, Turborepo, Postman, GitHub, VS Code, IntelliJ

Experience

Full Stack Developer Mar. 2024 – Present
Align Technology - iTero India R&D *Hyderabad, TG*

- Built full-stack features using **Angular**, **.NET Core**, and **PostgreSQL**.
- Designed and maintained **micro-frontends** for scalable and modular architecture.
- Developed **npm packages** and reusable **UI components** for cross-app consistency.
- Implemented **event-driven architecture** for decoupled, asynchronous services.
- Wrote **unit tests** and **Playwright automation tests** to ensure quality and reliability.
- Contributed to **Scrum Agile** processes, collaborating on sprints and team planning.

Senior Planning Engineer Aug. 2021 – Jan. 2023
Larsen & Toubro Ltd. - HPCL Rajasthan Refinery Ltd. *Barmer, RJ*

- Coordinated cross-functional teams for timely procurement processes and client billing worth 636 Cr.
- Used Primavera project management tool for scheduling and resource management.

Projects

Portfolio Website | *React, Tailwind CSS, Zustand, GitHub Pages* /shubhjena.github.io

- Problem Statement: Develop a portfolio website to showcase my skills and projects.
- Developed a portfolio website with home, projects, and about sections.
- The website showcases my skills, projects, and contact information.

Community Chat | *Next, Socket.io, Node.js, Redis, Kafka, Prisma, PostgreSQL* /github/CommunityChat

- Problem Statement: Build an application to anonymously chat in real-time.
- Created a 'Community Chat' web app with Next.js and Node.js, made scalable with Redis and Kafka.
- Users can chat in real-time on a web-based chat interface on any of the predefined topics.
- Data is stored and fetched from a PostgreSQL database using the Prisma ORM tool.

Quiz Application | *Spring Boot, Java, Maven, PostgreSQL, REST API* /github/Quizapp

- Problem Statement: Develop a quiz app with RESTful API endpoints.
- Created RESTful API endpoints for quiz creation, submission, and management.
- Quiz questions are maintained in a PostgreSQL database to which questions can be added or deleted.
- Users can generate a quiz with a requested number of questions in any of the given topics.

Education

Great Learning Online
Coding Bootcamp for PGP SDE *Nov. 2022 – Present*

IIT Madras Chennai, TN
Master of Technology in Construction Tech. & Management - CGPA 8.92 *Aug. 2019 – June 2021*

LD College of Engineering Ahmedabad, GJ
Bachelor of Engineering in Civil Engineering - CGPA 8.45 *Aug. 2015 – June 2019*
